

COVID-19: New measures

**In VITIS SportCenter is valid from
TODAY October 19th, 2020**

At its extraordinary meeting on October 18, 2020, the Federal Government took several measures valid throughout Switzerland against the sharp rise in coronavirus infections, which have consequences also for sports facilities.

The measures applicable from today (Monday, 19 October 2020) mean that....

- No protective mask has to be worn during sports on the field/court
- Indoors from the center entrance, on the way to the courts, inside the lockerroom, at the reception, in all lounges and up to the table in the restaurant protective masks are mandatory.
- Tournaments are considered public events and not private events or gatherings. Therefore, there is no limit of max. 15 persons for tournaments or other public events in clubs and centers. However, there must be a protection concept. This can still be part of the general protection concept of the club or center.
